Please replace the paragraph (Table 26) beginning at page 241, line 1, with the following (see enclosed sheets).

REMARKS

The amendment to TABLE 25 corrects errors of a typographical nature for the SEQ ID NOS: in the far right column (found in Table 26) to which the Unigene titles and gene descriptors apply. The first group consists of SEQ ID NOS:1-5 instead of 1-4 and subsequent groups have been adjusted by one, with addition of SEQ ID NO:41 to the last group.

Table 26 has been reprinted in a font to correct alignment of position numbers with their respective nucleotides or amino acids.

Applicants request entry of this amendment in adherence with 37 C.F.R. §§1.821 to 1.825. This amendment is accompanied by a floppy disk containing the above named sequences, SEQ ID NOS:1-41, in computer readable form, and a paper copy of the sequence information which has been printed from the floppy disk.

The information contained in the computer readable disk was prepared through the use of the software program "PatentIn" and is identical to that of the paper copy.
